

**REMARKS**

- II. Claims 35-55, drawn to a method of making semiconductor devices, classified in Class 438, subclass 149.

As indicated, and in order to be fully responsive to the restriction requirement imposed in the present Official Action, applicants provisionally elect, without traverse, to prosecute the subject matter of Group I, i.e., Claims 56-80, and reserve the right to file one or more divisional applications directed to the non-elected subject matter in this application, i.e., Claims 35-55.

Wherefore, consideration and allowance of the claims of the present application are respectfully requested.

Respectfully submitted,
